

YAMARIN

2020

EMPOWERED BY  **YAMAHA**

WELCOME TO THE RENEWED YAMARIN PRODUCT FAMILY!

For the season 2020 we have launched new models where bold, fresh designs are combined with superior driving qualities and safety features. The smart design language continues into the next generations of Yamarin boats together with our traditional strengths: social cockpits, high-performance hulls and predictable safety, which all support Yamarin' s position as the boating pioneer also in the future.

You will find this new look and feel in our flagship, the Yamarin 88 DC as well as in its little sisters, the 63 BR and the brand new 60 DC & 63 DC. The Yamarin 63 DC and 63 BR' s negative chines and wider hulls along with the strakes, which have been optimized on the engine power range, guarantee a carefree and enjoyable boating experience. Welcome to get acquainted with the renewed Yamarin boat range, either at your nearest dealer or at a boat show near you!

A FIRM CUSTOMER FAVOURITE

Yamarin has found a solid place at the hearts of Nordic boat owners. It stands as a reliable choice that combines supreme handling, timelessly stylish design and travel comfort. It's no wonder our boats have been so successful in European boating magazine tests: anyone can find a favourite model from the extensive Yamarin boat range, regardless if you're looking for a camping boat for a nearby archipelago, a commuting boat to your cottage, or simply a way to enjoy the sheer thrill of speed.

INSPIRATION

In addition to the handling capacities of Yamarin boats, we work hard to make sure you can take it easy with your friends and loved ones. Our design work is also guided by an understanding of how a proper cottage boat needs to be multifunctional – especially in Scandinavia. Similarly, travel boats are also used for fishing and commuting. The versatility of our boats is an important reason why our customers continually choose Yamarin, year after year.

SAFETY

Your safety, along with the safety of your family and friends, is highly important to us. This is why all Yamarin boats have gone through hundreds of hours of thorough safety tests – starting all the way from their inception. These safety tests result in comprehensively secure boats that are built to be enjoyed by everyone. We do this so you can relax and live out your dream summer.

QUALITY AND DESIGN

Yamarin was created to withstand the ever-changing Nordic weather conditions. Its design language and interiors have a timeless, Scandinavian style, without forgetting family-friendly solutions. In our boats, the use of space is always practical and efficient. Yamarin boats are also known for their high level of standard equipment. We still make our boats by hand with more than 40 years of experience, and more than 70,000 boats on European waters.

HANDLING

The qualities of thoroughly tested and fully optimized Yamarin boats – as well as their hull geometry – guarantee first-class handling in all conditions. Yamarin is built to provide you with unforgettable boating moments.

JOIN US

You can enter the world of Yamarin on our website, and in our social media pages. Find us on Instagram, Facebook and YouTube @**Yamarincom**. Come enjoy the everlasting Yamarin summer with us via **#yamarin #yamarincom**. Join the Yamarin family!

For decades, Yamarin has been a highly valued boat brand with products that combine reliability, comfort and timeless style. The brand's quality is also strongly associated to Yamaha, which helped in making Yamarin the most popular boat brand in Scandinavia.

EmPowered by Yamaha is more than a message about Yamarin's performance. It is a promise that empowers. The promise speaks of how both the boat and its driver achieve entirely new experiences, together. Experiences, which are only possible with Yamaha.

YAMARIN Q MAKES BOATING EASIER

A smart system that is easy to use.

YAMARIN Q TECHNICAL INFORMATION:

Smart 10" or 16" touchscreen · Very bright, WXGA-level display · 1 GHz four-core processor · NMEA 2000 compatible · Yamaha Engine Interface compatible · C-Map nautical charts, one map region is included in the price · Weather information is available through the Internet · FM and DAB radios, sound reproduction system available as an extra feature · WiFi, Bluetooth and 3.5G connections, a one-year data connection encompassing all of Europe is included in the price · Boat manual and motor manual as well as instructional material · Automatic updating through the Internet · AIS, echo, Fishfinder, remote control and radar compatibility

Yamarin 88 Day Cruiser, 63 Bow Rider and the new 2020 models 60 Day Cruiser and 63 Day Cruiser are equipped with the advanced Yamarin Q infotainment system, which combines a large and intuitive touchscreen with an on-board computer, electronic map, and an entertainment system as standard equipment for modern boating.

Yamarin Q removes the need for a separate chart plotter or echo sounder. Everything necessary – ranging from maps and motor information, to localised weather reports, boat guides, and instructional boating videos – all conveniently compiled in one location. Yamarin Q makes boating easier than ever before.

Standard equipment includes an Internet connection, nautical charts, engine gauges and a WiFi hotspot.

The basic functions of Yamarin Q include an Internet connection, C-Map nautical charts, a Yamaha outboard motor gauge and notification system, local weather reports and a WiFi hotspot, which enables sharing the Internet connection of Yamarin Q with other devices. Through Yamarin Q, you can also play music wirelessly from music apps of external devices.

The functions of the Yamarin Q system can be supplemented with an echo sounder, a fish radar and a high-quality sound system. Yamarin Q complies fully with the NMEA 2000 boating standard, so it can also be connected to devices of other manufacturers of boating electronics.

The Yamarin Q Fishfinder uses CHIRP technology, which enables exceptionally good image quality. In contrast to other echo sounders, the Yamarin Q Fishfinder sends a very broad spectrum of signal frequencies during each gauging pulse, all the way to a depth of 270 metres. The Yamarin Q Fishfinder probes the seabed and fish to a depth of 270 metres.

YAMARIN APP

Share your on-water experiences with friends

Yamarin App is a free mobile application which you can pair with the Yamarin Q unit. After a sun-drenched day on the water, you can revisit your route, share it with friends and explore trip data since Yamarin Q transmits all this to your app. You can also add photos you have taken and share them on social media - directly through the app.

Your ever-present boating tutorial

With the built-in video tutorials and instructions, you can familiarize yourself with the features of your boat and how to properly use it. The Yamarin App includes useful tips in boat handling, maintenance and winter storage. The app allows you to dry practice mariners knots, boat handling in port and trailering while at home. The app also includes intuitive and easy to understand instructions for using Yamarin Q as well as the owner's manuals for boat and engine alike. The app helps you also to find the nearest Yamarin dealer.

Your yamarin boat always in your pocket

The Yamarin App keeps your personal virtual logbook and vital boat information handily available, always and anywhere as the app shows you the location, fuel level and battery status of your Yamarin boat. By pairing your app with your Yamarin Q unit you are better prepared for upcoming boating activities.

YAMARIN CABIN – THE ALL-WEATHER BOAT

Fit for any weather, the smart Yamarin Cabin features a comfortable cabin and features many amenities that make it a versatile boat. It makes for an excellent commuter vessel, while also being ideal for longer trips or fishing purposes. The compact interior spaces, which can be heated, make spending time and sleeping onboard a pleasure. Yamarin Cabin's easy passage through the boat makes it easy to use – mooring can even be performed entirely alone. The Cabin model line includes the model 68 C.

YAMARIN DAY CRUISER – THE CONNOISSEUR'S CHOICE

The Yamarin Day Cruiser boats are premium day cruiser boats with bow cabins that feature thorough finishing in both their design and details. A high equipment level, smart use of space, and an elegant interior have made this great model number one in the DC class. Yamarin Day Cruiser creates an ideal fit for day trips, camping, and water sports – even offering the opportunity to stay overnight. The DC range includes models: 88 DC, 79 DC, 68 DC, 65 DC, 63 DC, 60 DC and 59 DC.

YAMARIN CONSOLE – THE A-CLASS OF OPEN BOATS

The Yamarin Console open boats are an excellent match for inexperienced boat drivers. The size selection and three console alternatives of our Console open boats enable versatile use from commuting to camping and fishing. The Console model line, with its high sides, offers a spacious interior and practicality, not to mention stability, safety, and excellent handling. Our Console range includes: 61 CC, 56 SC, 47 TC, and 46 SC.

YAMARIN BOW RIDER – FOR SPEED LOVERS

A fun, trendy, high-performance open boat with excellent handling. What more could you ask for high-speed water sports or day trips? The practicality and safety of the sturdily constructed Yamarin Bow Rider create unforgettable experiences of high-speed boating. Its pivoting offshore seats, together with the table in the rear space create a social space in the stern, fit even for a larger group. The Bow Rider range consists of 63 BR and 56 BR.

88 DAY CRUISER

65 DAY CRUISER

Our permanent favourite, Yamarin 65 DC, offers the thrill of speed! The cornerstones of the model's popularity include spacious berths at the bow, a cosy social area at the rear and ample storage space. The port side console also includes a sink and installation readiness for a water system. The grey steering console is anti-reflective and improves visibility.

yamarin.com

All Yamarin models are CE approved and the boats belong to category C. Factory-equipped Yamarin boats have a Yamarin Q infotainment system or Yamaha LAN multi-function gauges (the 46 SC and 47 TC models have a LAN multi-function gauge), a remote control and remote control cables. The motor installation bolts are installed at the factory. The boats in the brochure have been specially accessorised. There can also be some differences in the models of various countries, so be sure to check with your Yamarin sales representative to find out about the basic accessories for your chosen boat. Production engineering can cause fluctuations in the weight, dimensions and performance of boats. All rights reserved.
